Subject: RE: 1009 66th Ave - Status of EPA Review - input

Greetings, Ron:

I have completed the review of the information that you sent and I am finishing a message addressed to you concerning PCBs at the Aspire property. You should receive my message no later than October 13 since October 12 is a federal holiday.

I appreciate your great patience and thank you for your courtesies.

Sincerely,

Carmen D. Santos

Greetings, Ron:

Thank you for your patience. By the end of next week at the latest I will let you know of our recommendation on a self implementing or risk-based PCB cleanup.

Sincerely,

Carmen D. Santos, Project Manager

Carmen this project is going to be gaining momentum in the next couple of weeks as we are starting to engage a contractor to provide demolition, asbestos abatement, and ultimately excavation activities. Can you please let me know what the status of the EPA review-input for this project will be? I would like to have some type of resolution on the TSCA issue (self implementing or risk based) by the end of next week (September 25, 2009).

Is that reasonable? Please let me know as soon as you can.

Thanks

Subject: 1009 66th Ave - Drilling Logs

Carmen this project is going to gain some momentum. Based on our conference call I have the following information:
Boring logs (attached)
I have no data regarding the location of a steam cleaning sump at the Site.
We will test samples collected from selected groundwater monitoring wells for PCBs (sampling to take place September 21& 22).

Please let me know if you have any questions or need any more information. I will try and contact you next week to follow up on your review schedule or Toxic Substance Control Act (TSCA) requirements for this project.
